- #1 select University of Detroit Mercy in the "**Participating Institutions**" drop-down box.
- Create your own username and password and select a Learner group. Five Learner groups have been set up for UDM:
 1. Dental/Nursing/Biomedical
 2. Social/Behavioral Researchers
 3. IRB Members
 4. Students conducting no more than minimal risk research
 5. Archive/Records/Specimens.

Most research studies will fit under Social/Behavioral, referring to surveys and other studies of behavior, including many that are conducted in medical settings. If you are planning to conduct a study with investigational medications or other experimental treatments, however, the biomedical course would be appropriate. When in doubt, discuss your curriculum with the IRB Chair, [Dr. Elizabeth Hill](#).

- Question 2 pertains to the Refresher Course, available after the Basic Course
- One option from Question 3 must also be selected, usually the "Social and Behavioral Responsible Conduct of Research Course."
- Question 4 may be left blank.

The courses can be completed over several sessions. Quizzes are given following the reading material. When the required modules are successfully completed, a Course Completion Report is available for printing. A copy will be sent automatically to the IRB for record keeping purposes.
