STEPS TO A SUCCESSFUL APPLICATION:

- **Choose a beginning and ending date for your employment**

Students engaging in OPT after graduation: Your beginning date can be any day in the 60-day period after you complete your studies. Your completion date is the University's official end-of-term date of your final term. For example, if your last term ends May 1, you may choose any date between May 2 and June 30 as your work start date.

- **Submit your application as early as possible.** It usually takes several months for U.S. Immigration and Citizenship Services (USCIS) to process your application and the following deadlines apply:

Pre-completion OPT (OPT done before you finish your program): If you have not yet met the OPT eligibility requirement of two consecutive terms in F-1 status, the earliest you may submit an application to USCIS is **90 days** before the end of your second term (provided your employment start date is on or after that date). If you have already met the two-term requirement you may apply for pre-completion OPT up to **120 days** in advance of the requested employment start date.

Post-completion OPT (OPT done after you finish your program): Your application must be received by USCIS no sooner than 90 days before the date on which your academic program ends (the official end-of term date of your last semester) and no later than 60 days after the program end date. Please note that your program end date is not necessarily the same as the completion date on your I-20.

- **Avoid Delays.** Follow instructions. Complete your application carefully and thoroughly. Applications which are incomplete or incorrect will be returned to the applicant for correction. (This includes photos that do not meet standards.) **Allow at least one week for the ISO to process your application and mail it to USCIS.**
