

We Want Great Things for You

MASTER OF ARTS IN EARLY CHILDHOOD EDUCATION

Unfortunately, we are not accepting applications to the Early Childhood Education graduate Program anymore.

If you were considering this Program as an already certified teacher, seeking a master's degree in an education-related area, perhaps you may wish to consider one of the other remaining education graduate Programs at UDM: Curriculum & Instruction, Special Education, Educational Administration, School Counseling, or School Psychology.

If you were considering this Program as a non-certified teacher, seeking a master's degree in an education-related area with teacher's certification at the same time, there are only two graduate Programs at UDM that allow this option: Curriculum & Instruction (aka general education) and Special Education. Perhaps you may wish to consider one of these Programs to meet your goal of becoming a certified teacher.

If you can be more specific and tell me which Program you are interested in, I'll provide you with the specific application process for that Program.

Sincerely,

Jodi Abatemarco
