DETROIT, Dec. 5 /PRNewswire/ -- Sullivan, Cotter and Associates, Inc., a human resources consulting firm, has named Brian Walby, Ph.D. a Principal in its Detroit office. Prior to joining the firm, Walby was a Director of Global Compensation for TRW Automotive Holdings, Inc. He brings more than thirty years of executive management and consulting experience in human resources and compensation to manufacturing, financial services, distribution, health care, technology, utilities, and not-for-profit organizations to SullivanCotter. Previously, Walby was also market leader of two other major consulting firms. Walby is a Certified Compensation Professional. He received his Bachelor of Arts degree from University of Detroit and a Ph.D. from the University of Michigan.

"We are delighted to welcome Mr. Walby to SullivanCotter in Detroit. His consulting experience includes working with a wide range of organizations to develop and implement compensation programs. Walby also has extensive experience consulting to boards and board committees regarding total compensation audits, best practice development, customized surveys of compensation and benefits and offers tremendous advantage to our clients," notes Mark Pittel, Managing Director of SullivanCotter.

Sullivan, Cotter and Associates, Inc. specializes in the development and implementation of strategic total compensation and reward programs for the healthcare industry. Since 1992, SullivanCotter has worked closely with healthcare organization executives, boards and compensation committees to devise innovative compensation solutions that attract and retain leadership talent while satisfying not-for-profit missions and regulatory requirements. A leader in independent consulting, benchmarking, trends and analyses, SullivanCotter has also developed the most widely recognized physician and executive compensation surveys in the United States. SullivanCotter has offices in Atlanta, Boston, Chicago, Dallas, Denver, Detroit, New York City, Parsippany (NJ), San Francisco and Westport (CT).
