5. Assessment Overview

Briefly share how the student outcome was assessed. Include semester and year, how student data were collected, who performed the assessment, and the assessment method/instrument/tool that was used.*

How Outcomes are Assessed: Students are assessed using a pre-test, multiple post-test model. A pre-survey is administered during the beginning of their Introduction to Leadership Course (PYC 2620/LEAD 2000). Interim post-surveys are administered during service learning courses and the final post-survey is administered at the end of the Leadership Capstone Course (LEAD 4000). This cycle is completed at the beginning and end of every Fall and Winter semester. Students complete a Reflection Essay at the end of their Senior Year or the year they earn the Leadership Pin or Medallion. Survey Assessments are administered and analyzed by Institute for Leadership and Service (ILS) Team Members. Reflection Essays and Group Reflections are facilitated and analyzed by Institute for Leadership and Service Steering Committee Members and ILS Team Members. Tools and Instruments: Seemiller, Corey, The Student Leadership Competencies Guidebook: Designing Intentional Leadership Learning and Development. Jossey Bass, San Francisco, CA, 2014 Hipkind, T, Martin, M, & Zimmerman-Oster, K., Detroit Mercy Social Change Model Leadership Competencies, 2018. (to Seemiller Competencies)

6. Results, Planned Actions, and/or Actions Taken

Briefly summarize the assessment results and how you are using them to reinforce Detroit Mercy's mission and values, enhance co-curricular experiences, and improve student learning.*

Annual results from the Detroit Mercy Social Change Model Leadership Competencies pre-post surveys indicate practical and statistical improvement in multiple competencies and Social Change Values and are consistent with the additional assessments that are conducted using the Multi-institutional Study of Leadership which occurs every three years. When surveyed, a majority of students (73-83%) affirm that they have a clear understanding of the University's mission and have had several opportunities on and off campus to experience the University's mission and vision. The above quantitative data results are also consistent with qualitative data gathered from student Reflection Essays and Group Reflection sessions. All of the above data is kept in a relational data base for preliminary and long term analysis and review.
