

Description/Overview:

Photography offers a mode of creative communication as well as a lens into the communities we inhabit and visit. Photographs can capture a range of moments and expressions, people, places, and events. As such, the Office of Academic Affairs and Center for Excellence in Teaching & Learning would like to invite all University of Detroit Mercy community members to submit digital photographs for consideration as part of an ongoing annual photography contest. The contest is open to faculty, staff, students, and administrators to celebrate and display our unique world views. You can submit photographs in the categories listed below (one entry per category). First-place winners in each category will receive cash prizes and an enlarged, mounted copy of their winning photographs.

All photographs should be submitted using the following guidelines

Each entry must include:

- Contestant Name, email, phone number
- A concise photograph title
(Title on digital entry file must match the entry form. "untitled" or "file number" is not acceptable)
- Date taken and category entered
- Description/Artist Statement of photograph
- A copyright notice (if applicable)
- Camera or device make/model the photograph was taken with
- Photo metadata information (F-Stop, Shutter speed, ISO, Focal length of lens etc.)

Categories

Abstract/Conceptual: Images of unusual patterns, lighting, or objects recognized for their design element (i.e., streaking light photos, mechanical structures, reflections in glass or metal, view from a strange angle). Images can be digitally enhanced or altered beyond the minor adjustments to create an entirely different photograph. All images must be produced by the photographer. The finished entry must still appear to be a photograph – not a drawing, illustration, painting, or resemble other mixed media.

People*: Photos of people, alone or in a group. Such pictures may be candid, humorous, journalistic, or interpretative portraits where an emphasis placed on the person - not the environment. The main focus should be people.

Nature/Scenic*: Images or scenes of plant life, landscapes, seascapes, underwater, architectural, and industrial scenes. Seasonal scenes which display a fundamental design or mood are also acceptable. The main focus should be nature/scenic.

Dusk to Dawn*: Details the photographic imagery captured after the sun goes down. This includes but is not limited to starry skies, life under neon lights, streaking traffic lights, mother nature at night, scenic landscapes and cityscapes, film noir portraits, creative use of light and shadows.

Creatures*: Images or scenes of animal life, wild creatures, insects etc. (i.e., action shots of your pet, giraffes at the zoo, cows on a countryside, banana slugs in the forest). It may be a scenic environment, but the main focus should be the creature(s) or animal(s).
