The following courses will transfer to Detroit Mercy to satisfy many of the course requirements for application to medical or dental schools. Although students may choose any major when preparing for medical or dental school, many students choose to major in biology, chemistry, or biochemistry due to the coursework required. The courses below will also meet many of the requirements for those majors. Detroit Mercy Admissions: admissions@udmercy.edu or 313-993-1245. Website: udmercy.edu

This guide reflects the Old Core Curriculum effective prior to Fall 2017. Transfer students starting between Fall 2017 and Summer 2021 will have the option to select this Old Core or the New Core. See Transfer Guides indicating “NEW CORE” for the new requirements.

**Students should review the requirements of their prospective medical or dental schools for a more complete list of requirements.** Note that many dental and medical school admissions committees prefer science courses be taken at a 4-year institution. Students may transfer a maximum of 63 credits towards a Bachelor's Degree; course grades must be a C or better. Additional courses not on this guide may also transfer. *Students are encouraged to also obtain a Transfer Guide for their chosen major (many are available on Detroit Mercy’s website).*
