FAQS

Who will submit my claims to Unum Dental?

Over a majority of the dental claims we receive are submitted by providers. You may submit your own claim by downloading a claim form from AlwaysAssist.com and mailing the completed form with receipts to our office. The address is listed on the back of your ID card.

Will my benefits cover any dental procedure?

Because all policies have limitations, it is recommended that you review the certificate of coverage prior to having work done. Recognizing that dental problems can be resolved with more than one type of treatment, Unum Dental will reimburse for the least expensive method that will produce the same resolution within professionally acceptable limits.

When should I have a pre-treatment estimate done?

We recommend you request a pre-treatment estimate for procedures expected to cost more than \$300. Please ask your doctor to submit the pre-treatment estimate request.

How do we coordinate benefits?

We follow the birthday rule for coordination of benefits. If a child has coverage under both parents’ policies, we use the birthday month of the parent that comes first in the year as primary.

MORE PROCEDURE-SPECIFIC INFORMATION

- On most plans, the policy will pay for a replacement of a crown, bridge, inlay, onlay or denture if it is at least five years old and cannot be made serviceable.
- A claim is considered incurred on the date an impression is taken for a bridge, dentures, or crown, or when the pulp chamber is opened for a root canal.
- If your policy does not include composite (white) fillings on molars, we will pay the alternate benefit of an amalgam (silver) filling. You will be responsible for the difference in cost. However, benefits can only be considered upon completion of a procedure.
